

Option Module part time MBO4 IB

Just like in HBO where minors are used also in MBO4 there are optional modules. For a two-year MBO4 course, optional components must be followed for a study load of 720 hours. The part-time student can choose from the options:

- K0031 Sustainable in appeal D study load 240 hours
- K0512 Lean and Creative study load 240 hours
- K0098 Spanish in the Professional Context A2 (all directions) study load 240
- K0072 Entrepreneurial behavior 3/4 study load 240 hours

The option 'Sustainability in the profession D' is aimed at formulating your own personal improvement possibilities in the field of sustainability, doing research into sustainability in the company, making a proposal for sustainability improvement in the profession and calculating the revenue. thereof. In addition to the lectures, an assignment is also made during the BPV.

The Lean and Creative option is about the mindset and the toolset linked to the lean and creative process with which you can act in a future-oriented and (pro) active manner in an ever-changing personal, social and professional context. With this option, a starting professional can formulate a clear (customer) question and look critically at the effectiveness of (business) processes based on customer needs. He / she can come up with creative and innovative solutions / formulate improvements and present his / her ideas in a convincing way. In addition to the lectures, an assignment is also made during the BPV.

The optional part Spanish in the professional context is focused on applying Spanish in the professional context ". In terms of language level, it is about basic knowledge of Spanish in order to be able to cope with standard situations in the professional context. This means that the health care professional understands standard phrases and the most frequent words when it comes to areas that concern him or herself. He follows, reads and understands the most important points in short, clear, simple messages, announcements, texts, letters and instructions. He finds specific, predictable information in these types of texts. The health care professional communicates and engages in short social conversations about simple and everyday tasks that involve a simple and direct exchange of information about familiar topics and activities.

The optional part Entrepreneurial behavior is developed in this optional part through three work processes: (1) Investigates himself, his (work) environment and opportunities for improvement (2) Identifies opportunities for change and innovation (3) Takes initiatives in his work. In addition to the lectures, an assignment is also made during the BPV.
